Progress in Landslide Research and Technology

Forewords and Greetings

Foreword by Nicola Casagli for Open Access Book Series “Progress in Landslide Research and Technology”

Nicola Casagli (President of the International Consortium on Landslides, University of Florence, UNESCO Chair on Prevention and Sustainable Management of Geo-hydrological Hazards, Florence Italy)

Foreword by John Ludden for Open Access Book Series “Progress in Landslide Research and Technology”

John Ludden (Professor of Lyell Centre, Heriot-Watt University, United Kingdom, President of the International Union of Geological Sciences)

Foreword by Kathy Whaler for Open Access Book Series “Progress in Landslide Research and Technology”

Kathy Whaler (Professor of Geophysics, University of Edinburgh, UK, IUGG)

Greetings by Mami Mizutori for Opening Session of the 5th World Landslide Forum

Mami Mizutori (United Nations Special Representative of the Secretary-General for Disaster Risk Reduction)

Greetings by David Malone for Opening Session of the 5th World Landslide Forum

David Malone (Under-Secretary-General of the United Nations, Rector of United Nations University)

Greetings by Shamila Nair-Bedouelle for Opening Session of the 5th World Landslide Forum

Shamila Nair-Bedouelle (UNESCO Assistant Director-General for Natural Sciences)

Preface

Aim and Outline of the Book Series “Progress in Landslide Research and Technology”

Kyoji Sassa, Matjaz Mikos

Part I International Consortium on Landslides and International Programme on Landslides

International Consortium on Landslides: from IDNDR, IGCP, UNITWIN, WCDRR 2 & 3 to Kyoto Landslide Commitment 2020

Kyoji Sassa, Paolo Canuti, Peter Bobrowsky, and Nicola Casagli

International Programme on Landslides – A Short Overview of its Historical Development

Matjaž Mikoš, Kyoji Sassa, Qunli Han

Part II Original Articles

Understanding and Reducing the Disaster Risk of Landslide-induced Tsunamis: Outcome of the Panel Discussion and the World Tsunami Awareness Day Special Event of the Fifth World Landslide Forum

Shinji Sassa, Stephan T. Grilli, David R. Tappin, Kyoji Sassa, Dwikorita Karnawati, Viacheslav K. Gusiakov, Finn Løvholt

Natural-hazard-related web observatory as a sustainable development tool

Matjaž Mikoš, Nejc Bezak, Joao Pita Costa, M. Beshar Massri, Inna Novalija, Mitja Jermol, Marko Grobelnik

Mapping post-fire monthly erosion rates at the catchment scale using empirical models implemented in GIS. A case study in Northern Italy

Damiano Vacha, Giuseppe Mandrone, Donato Morresi and Matteo Garbarino

Mechanisms of shallow rainfall-induced landslides from Australia: insights into field and laboratory investigations

Ivan Gratchev, Sinnappoo Ravindran, Dong Hyun Kim, Chen Cui, Qianhao Tang

Design protection barriers against flow-like landslides

Sabatino Cuomo, Angela Di Perna, Mario Martinelli

Landslide warning systems in low- and lower-middle-income countries: future challenges and societal impact

Irasema Alcántara-Ayala, Ricardo J. Garnica-Peña

The role of translational landslides in the evolution of cuesta topography

Shinro Abe, Daisuke Higaki, Kazunori Hayashi

Application of spectral element method (SEM) in slope instability analysis

Ram Chandra Tiwari, Netra Prakash Bhandary

Climate Change-Induced Regional Landslide Hazard and Exposure Assessment for Aiding Climate Resilient Road Infrastructure Planning: A Case Study in Bagmati and Madhesh Provinces, Nepal

I Putu Krishna Wijaya, Peeranan Towashiraporn, Anish Joshi, Susantha Jayasinghe, Anggraini Dewi, Md. Nurul Alam

Using Experimental Models to Calibrate Numerical Models for Slope Stability and Deformation Analysis

Binod Tiwari, Duc Tran

Sustainability of Geosynthetics-Based Landslide Stabilization Solutions

Ivan P. Damians , Yoshihisa Miyata, Pietro Rimoldi, Nathalie Touze, John Kraus

Part III Review articles

Establishment of the Disaster Risk Reduction Unit in UNESCO and UNESCO's contribution to Global Resilience

Lesly Mercedes Barriga Delgado, Irina Pavlova, Soichiro Yasukawa, Sergio Esperancinha

Part IV IPL Projects, World Centre of Excellence on Landslide Risk Reduction, and Kyoto Landslide Commitment 2020

Early warning system against rainfall-induced landslide in Sri Lanka

Kazuo Konagai, Asiri Karunawardena, Kithsiri N. Bandara, Kyoji Sassa, Ryo Onishi, Ryosuke Uzuoka, Shiho Asano, Katsuo Sasahara, Sanchitha Jayakody, Imaya Ariyarathna

Realtime high-resolution prediction of orographic rainfall for early warning of landslides

Ryo Onishi, Joe Hirai, Dmitry Kolomenskiy, Yuki Yasuda

IPL Project 202: Landslide monitoring best practices for climate-resilient railway transportation corridors in southwestern British Columbia, Canada

David Huntley, Peter Bobrowsky, Roger MacLeod, Drew Rotheram-Clarke, Robert Cocking, Jamel Joseph, Jessica Holmes, Kevin Sattler, Jonathan Chambers, Philip Meldrum, Paul Wilkinson, Shane Donohue and David Elwood

Advanced technologies for Landslides – ATLaS (WCoE 2020-2023)

Nicola Casagli, Veronica Tofani, Sandro Moretti, Riccardo Fanti, Giovanni Gigli, Silvia Bianchini, Samuele Segoni, William Frodella, Tommaso Carlà

Strengthening the Resilience by Implementing A Standard for Landslide Early Warning System

Teuku Faisal Fathani, Dwikorita Karnawati, Wahyu Wilopo, Hendy Setiawan

Central Asia Rockslides' Inventory: Compilation, Analysis and Training – Progress of the IPL WCoE

Alexander Strom

A global database of giant landslides on volcanic islands

Matt Rowberry, Jan Klimeš, Jan Blahůt, Jan Balek, Michal Kusák

Landslide Disasters Caused by the 2018 Eastern Iburi Earthquake in Hokkaido Japan and the Countermeasures to Completely Prevent the Similar Disasters in the Future

Fawu Wang, Kounghoon Nam

Landslide travel distances in Colombia from national landslide database analysis

Steven Moncayo and Guillermo Ávila

Landform Geometry for Mountain Road Restoration and Landslide Hazard Resilience

A. Virajh Dias, H.M.J.M.K.Herath and L.K.N.S. Kulathilake

Part V ICL Landslide Teaching Tools

LS-RAPID Manual with Video Tutorials

Beena Ajmera, Hossein Emami Ahari, Doan Huy Loi, Hendy Setiawan, Khang Dang, and Kyoji Sassa

Part VI Technical Notes and Case studies

Challenges in defining frequentist rainfall thresholds to be implemented in a landslide early warning system in India

Stefano Luigi Gariano, Massimo Melillo, Maria Teresa Brunetti, Sumit Kumar, Rajkumar Mathiyalagan, Silvia Peruccacci

Official Promoters of Kyoto Landslide Commitment 2020

List of Official Promoters of KLC2020

International Geosynthetics Society (IGS)

Geological Survey of Canada, Natural Resources Canada, Canada

Faculty of Civil and Geodetic Engineering, University of Ljubljana, Slovenia

China University of Geosciences, Wuhan, China

Department of Civil Engineering, National Taiwan University, Chinese Taipei

Institute of Rock Structure and Mechanics, the Czech Academy of Sciences, Czech Republic

Institute of Cold Regions Science and Engineering, Northeast Forestry University, China

Marui & Co. Ltd, Japan

Nippon Koei Co., Ltd, Japan

Ellegi srl, Italy

IDS GeoRadar s.r.l., Italy

Chuo Kaihatsu Corporation, Japan

Godai Corporation, Japan

Kiso-Jiban Consultants Co., Ltd, Japan

Kokusai Kogyo Co., Ltd., Japan

Osasi Technos, Inc., Japan
